Colors

The following color theme was chosen to match a "library" kind of theme. I think these colors established this.
Chocolate cosmos - #5E0B15 rgb(94, 11, 21)
Cordovan - #90323D rgb(144, 50, 61)
Dun - #D9CAB3 rgb(217, 202, 179)
Bronze - #BC8034 rgb(188, 128, 52)
Beaver - #8C7A6B rgb(140, 122, 107)

| 5E0B15	893F45	DAC8AE	CD7F32	9F8170
Chocolate cosmos	Cordovan	Dun	Bronze	Beaver

Typography

In this mockup, I used the Arboreto font. THIS IS THE ARBORETO FONT. I chose this font because I thought that it would match the library theme. I believe that this font does a great job. This is the only font that I will use in my mockup and website. This is also the only variation of the font that I will use. The body text is size 34 px.

Interactions
For interactions, the navbar links would all be working and linking to their corresponding pages. In addition, the upload image part would also be functional. The forms for submitting the image for verification as well as the contact us

form would also both be functional. This is what the buttons would look like. I chose a black background for a good contrast against the tannish background. The page is not animated for simplicity.
